ANDOVER CE PRIMARY SCHOOL

Relationships Education Policy

Date Agreed:	November 2023			
Review Date:	November 2024			
Signed:	Sara Allen	Nicky Parker		
	Interim Headteacher	Chair of Governors		

Vision

Our School aims to be a loving, inclusive family where our core Christian Values of Love, Courage and Forgiveness are recognised and developed. With God's Love, all are encouraged to thrive. As a Christian School Community, we believe that the ethos of our school should be built on a foundation of core Christian Values. The staff, children and governors have agreed the following three core values that we feel support our school motto which is promoted in school:

"Strive for Excellence in a happy, secure and Christian environment": Love Courage Forgiveness,

These core values will help us sustain an ethos which supports our aim for children to live happy, safe, healthy and fulfilling lives, to develop children who are equipped to be active members of society who demonstrate stewardship, curiosity and resilience.

We hope that our core values will help children understand that there are some central beliefs that people hold, and learn to fall back on these when making choices and decisions using these core values as an important guiding tool.

Definition

RSE is about the emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity. RSE involves a combination of sharing information, and exploring issues and values. RSE is not about the promotion of sexual activity.

Aims

The aims of relationships and sex education (RSE) at our school are to:

- Enable children to understand how to keep themselves and others safe
- Develop the personal skills needed by pupils for them to establish and maintain relationships, to recognise what a healthy relationship looks like, to form healthy relationships, ensuring respect and dignity for themselves and others
- Explore how to live well together, including behaving well towards others, disagreeing well, forgiving and repairing broken relationships
- Develop the skills to express their own views and make their own informed decisions, providing a framework in which sensitive discussions can take place
- Help pupils develop feelings of self-worth, self-respect, confidence and empathy, to cherish themselves and others as unique and wonderfully made
- Create a positive culture around issues of sexuality and relationships
- Teach pupils the correct vocabulary to describe themselves and their bodies
- Prepare pupils for puberty, by giving them an understanding of the importance of health and hygiene
- Enable children to make responsible and informed decisions about their health and well-being.

Policy Development

This policy has been developed in consultation with staff, pupils and parents as required by the Department for Education. We are committed to on-going consultation with families and stakeholders throughout the evolution of our school's relationships education programme. This process involved the following steps:

- 1. Review a working group pulled together all relevant information including national and local guidance as well as the Winchester Diocesan RSE Guidance document.
- 2. Staff consultation staff had the opportunity to look at the policy/curriculum and make recommendations
- 3. Parent/stakeholder consultation parents and any interested parties were invited to comment on the policy, look at examples of resources, and raise questions.
- 4. Ratification once amendments were made, the policy was shared with governors and ratified.

Statutory Requirements

Relationships education is compulsory in primary schools from 2020, so all pupils must take part in these lessons. Sex education is not compulsory for primary schools. Pupils will learn about puberty, as part of the science and health education curriculum in years 5 and 6. They will also learn about human reproduction in year 6. Parents have the right to withdraw from this.

Curriculum

Our curriculum is set out in Appendix 1. This will be reviewed and adapted as and when necessary. We have developed the curriculum in consultation with parents, pupils and staff, taking into account the age, needs and feelings of pupils. Teachers will use the objectives and always take into account the needs and feelings of our pupils. If pupils ask questions outside the scope of this policy, teachers will respond in an appropriate manner so they are fully informed and don't seek answers online.

Primary sex education will focus on:

- Preparing boys and girls for the changes that adolescence brings
- How a baby is conceived and born

For more information about our curriculum, see our curriculum map in Appendix 1

Links to other curriculum areas

Curriculum at Key Stage 2, the science curriculum includes teaching about changes to the human body as it grows from birth to old age, including puberty. This remains statutory. Religious education links to relationships education by looking at family, values and morals, and the celebration of marriage in different traditions. Health education, which is statutory in state funded schools from September 2020, includes teaching on feelings as they relate to mental wellbeing, the importance of friends and family, the impact of bullying, and how children can seek help if they have worries. It also requires schools to teach about the emotional and physical changes that take place during puberty.

Delivery

Relationships education will be inclusive for all pupils, sensitive to all family and faith backgrounds and pupils' own identities. It will be respectful of all protected characteristics under the Equality Act 2010. Protected characteristics are age, disability, gender reassignment, race, religion or belief, sex, sexual orientation, marriage and civil partnership and pregnancy and maternity.

Across all Key Stages, pupils will be supported to develop the following skills as appropriate to their age:

- Communication skills
- Forming positive relationships including self-respect as well as respect and empathy for others
- Recognising and assessing potential risks
- Assertiveness and managing conflict and difficult emotions.

These skills are taught within the context of family life and friendships, in an age appropriate way. The school environment will reflect, value and celebrate the diversity of friendships and relationships. Lessons will be delivered by school staff. Additional external organisations may also be invited to contribute to enhancing this curriculum e.g. NSPCC, School Nurse Team. The Department for Education (DfE) has set out guidance on what children must learn by the end of year 6, under a series of themes. The statutory content as written by the DfE is set out below. Some themes will recur throughout school while others will be taught in the most appropriate years. All visiting professionals must have read and understood the RSE policy before visiting the school and working with the children.

Families and people who care for me

- Families are important for children growing up because they can give love, security and stability
- Characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives
- Others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences or know that other children's families are also characterised by love and care
- Stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up
- Marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong
- How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed

Caring friendships

- How important friendships are in making us feel happy and secure, and how people choose and make friends
- Characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties
- Healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded
- Most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right
- How to recognise who to trust and who not to trust, how to judge when a friendship is making them feel

unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed.

Respectful relationships

- The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs
- Practical steps they can take in a range of different contexts to improve or support respectful relationships
- The conventions of courtesy and manners
- The importance of self-respect and how this links to their own happiness
- In school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority
- Different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help
- What a stereotype is, and how stereotypes can be unfair, negative or destructive
- The importance of permission-seeking and giving in relationships with friends, peers and adults

Online relationships

- People sometimes behave differently online, including by pretending to be someone they are not
- The same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous
- Rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them
- How to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met
- How information and data is shared and used online

Being safe

- What sorts of boundaries are appropriate in friendships with peers and others (including in a digital context)
- Privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe
- Each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact How to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know
- How to recognise and report feelings of being unsafe or feeling bad about any adult
- How to ask for advice or help for themselves or others, and to keep trying until they are heard
- How to report concerns or abuse, and the vocabulary and confidence needed to do so
- Where to get advice e.g. family, school and/or other sources.

Roles and responsibilities

The Governors

The Governors will approve the relationships education policy, and hold the head teacher to account for its implementation.

The Head Teacher

The Head Teacher is responsible for ensuring that relationships education is taught consistently across the

school, and for managing requests to withdraw pupils from non-statutory sex education lessons, if applicable.

The Curriculum Leader

The Curriculum Leader will:

- Develop a differentiated curriculum
- Work closely with subject coordinators in Science, Computing R.E and P.E. to ensure Relationships Education, Sex Education and Health Education do not duplicate content covered in the National Curriculum
- Work with external organisations in order to enhance delivery of these subjects by introducing specialist knowledge and different ways of engaging with pupils
- Ensure that the teaching delivered by a specialist teacher fits with the planned programme
- Provide strategic leadership and direction
- Provide a curriculum that provides pupils with the essential knowledge they need to be educated citizens in democratic Britain;
- Coordinate a number of working parties in order to explore ways of improving the curriculum and the way in which we deliver it
- Promote an awareness of and respect for a diversity of cultures, values, beliefs and abilities
- Ensure appropriate coverage of the curriculum
- Provide support and advice
- Monitor pupil progress in this area
- Ensure sufficient and up to date resources are in place
- Provide guidance and support to all staff
- Provide training for all staff on induction and when the need arises regarding
- Make effective use of relevant research and information to improve this policy
- Keep up to date with new developments and resources
- Review and monitor the implementation of the policy and curriculum
- Annually report to the Governing Body on the success and development of this policy

Staff

Staff are responsible for:

- Delivering relationships in a sensitive way, taking account of pupils' family and faith backgrounds
- Modelling positive attitudes to relationships education, as with any other subject
- Monitoring children's learning in order to ensure they make progress
- Responding to the needs of individual pupils
- Responding appropriately to pupils whose parents wish them to be withdrawn from the non-statutory sex education lessons, if applicable.
- Informing parents of when the Growing Up and its My Body units will be taking place in Year 5 and 6, allowing parents to look again at the resources to be used.

Staff do not have the right to opt out of teaching relationships education. Staff who have concerns about teaching this subject are encouraged to seek support.

Pupils

Pupils are expected to engage fully in relationships education lessons and treat others with respect and sensitivity, as we expect all the time in school.

Parents' right to withdraw their children from lessons

Parents have the right to withdraw their children from sex education lessons taught as part of the relationships education or PSHE curriculum. Requests for withdrawal should be put in writing and addressed to the head teacher. A copy of withdrawal requests will be placed in the pupil's file so that parents' wishes are on record. Alternative work will be given to pupils who are withdrawn from sex education. Primary schools are required to teach the elements of sex education contained in the science curriculum and there continues to be no right to withdraw from these lessons.

Our Approach as a Church School

The 2018 SIAMS schedule for inspection also states in the section on 'Dignity and Respect' that from 2019, schools should offer 'appropriate and coherent relationships and sex education that reflects the school's Christian vision and supports pupils to form healthy relationships' (SIAMS 2018). The Church of England document 'Valuing all God's Children', 2017 states: "All bullying, including homophobic, biphobic and transphobic bullying, causes profound damage, leading to higher levels of mental health disorders, self-harm, depression and suicide. Central to Christian theology is the truth that every single one of us is made in the image of God. Every one of us is loved unconditionally by God. We must avoid, at all costs, diminishing the dignity of any individual to a stereotype or a problem. Church of England schools offer a community where everyone is a person known and loved by God, supported to know their intrinsic value." (Page 1). It is also a part of the 2018 SIAMS schedule that Church of England schools should enable their pupils to "embrace difference".

The school's approach is consistent with the Church of England's RSE Charter and Principles, which can be found here: https://www.churchofengland.org/sites/default/files/2019-11/RSHE%20Principles%20and%20Charter_0.pdf

- Collective Worship policy

Monitoring arrangements

The delivery of RSE is monitored by the Lead for PSHE and the Headteacher through: Learning Walks, child conferencing/ pupil voice and work sampling. Pupils' development in RSE is monitored by class teachers as part of our internal assessment systems. This policy will be reviewed by PSHE lead and the Curriculum and Standards committee on a bi-annual basis or in the event of updated statutory guidance. At every review, the policy will be approved by the governing body.
