

Science

Electricity

*This term we will be making and investigating circuits, evaluating circuits, circuit diagrams. We will then apply our knowledge to problem solving challenges and using our knowledge of circuits in DT.

Geography – Volcanoes and Earthquakes

We will be continuing our topic of volcanoes and earthquakes and will continue to learn about:

- The structure of the Earth.
- Features of a volcano.
- Famous volcanoes and earthquakes.
- Effects of volcanoes and earthquakes.

Music

Children will continue their music technology topic, creating and developing their own piece of music using digital technology.

MFL

This term our topic will be ¿Tienes una mascota?
- Do You Have a Pet?

PSHE -

See PSHE curriculum overview for further details

RE – Salvation -
Why do Christians think Jesus was resurrected?

Spring Term 2 Extreme Earth continued

DT

In DT we will be applying our knowledge from science to create working lighthouses.

English

Our English this term will have two different focuses. The first will be writing to entertain by creating a narrative containing dialogue, linked to the animated short film *Umbrella*.

We will also be writing non-fiction texts, such as diaries, using the book *Shackleton's Journey* as our inspiration.

Maths

This term we will be learning about:

- Ratio
- Statistics
- Recapping fractions, decimals and percentages
- Preparing for SATS

Computing

This term we will be exploring internet safety

PE – we will be taking part in gymnastics sessions as well as striking and fielding sports, such as cricket/rounders.
